

## Road Transport Advice Service

Save money, reduce and manage risk -  
consult with the specialists.

The provision of legal services is radically changing - most people would prefer legal advice from a qualified solicitor but are concerned regarding the uncertainty of cost the hourly rate model brings. This is why we have developed and introduced a fixed fee model that provides cost effective unlimited Road Transport legal advice.

You will have direct telephone access to experienced Road Transport Law Solicitors during our normal hours of business and also outside our normal hours. We will provide you with general guidance and advice on Road Transport regulatory issues relating directly to your commercial goods or passenger services vehicle fleet operation (i.e. operator licensing, undertakings and obligations, maintenance requirements, drivers' hours, enforcement procedures and general legal requirements).

Our fixed fee unlimited road transport advice service will provide you with advice on the legal requirements of running your fleet operation but will not cover the provision of advice in relation to any specific contentious or non-contentious matters.

Our fixed fee service will **exclude** preparation for and attendances at Court, travel, preparation for and attendances at Public Inquiries, tribunals, preparation for and attendances at interviews under caution, face-to-face meetings, the drafting of bespoke or tailored documents.

Here is a list of what our unlimited telephone advice includes.

Telephone advice covering any questions you may have relating to:

- Operator Licensing and exemptions
- Drivers Hours derogations and exemptions
- Overloads
- Insecure Loads
- Prohibitions
- Special Types General Order requirements
- Mobile plant and exemptions
- Health & Safety issues
- Environmental issues
- Vehicle Excise Duty
- Red Diesel

**Avoid the trauma of litigation, early advice reduces legal costs. Consult with the specialists.**
